

# Project Facts

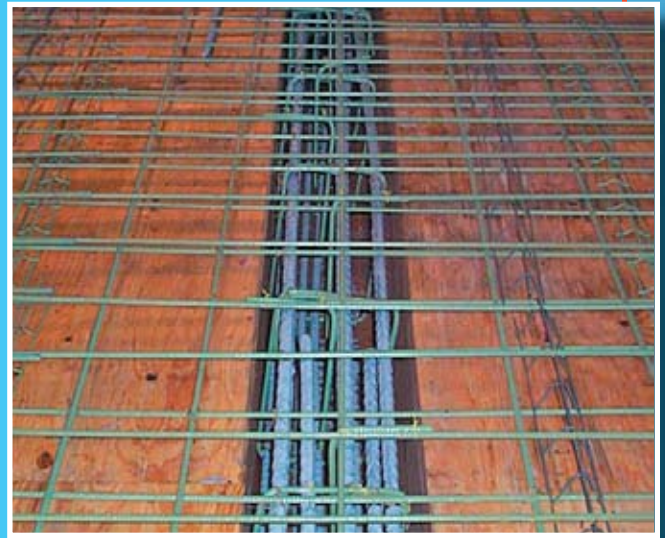

## Parking Structure Repair Catherine Street Parking Structure

Location: Ann Arbor, MI  
Cost: \$184,000  
Start Date: October, 2006  
Duration: Two Months

### Services Provided

- Structural concrete repair
- Beam and column repair
- Installation of shores

### Project Description

The parking structure required critical structural repairs to localized areas of the floor slab. Repairs began with full depth concrete removal and the installation of permanent shores. Existing concrete beams were removed and replaced as needed. New full depth concrete was installed to complete the floor slab repair.
