

Project Facts

Concrete Repair and Waterproofing Hopkins International Airport

Location: Cleveland, OH
Cost: \$2,008,000
Start Date: May 2005
Duration: On-going

Services Provided

- Laying urethane membrane
- Concrete slab replacement
- Expansion joint installation
- Shotcrete repair to beams and columns

Project Description

All aspects of concrete repair were performed in this major restoration of a four story airport parking garage. Tasks included: 12,000 sq. ft. full depth replacement and partial depth concrete deck sections, 3,000 sq. ft. of large beam and column repairs with shotcrete, 158,000 sq. ft. of traffic coating replacement, and 1,700 feet of new expansion joints. All repair work was performed while maintaining the daily operation of the garage.
