Location: Cleveland, OH
Cost: \$2,771,000
Start Date: February 2005
Duration: Twelve Months

Services Provided

- Concrete slab waterproofing
- Concrete topping
- Structural repair
- Urethane membrane installation
- Expansion joint replacement

Project Description

Western Waterproofing performed a major restoration of a three-level parking garage. In addition to 16,000 sq. ft. of structural repairs to beams, columns, and pre-cast tees, repairs included 150,000 sq. ft. of split slab waterproofing, 150,000 sq. ft. of concrete topping replacement, and 1,000 feet of expansion joint replacement. Western Waterproofing also installed 65,000 sq. ft. of traffic membrane. The complete restoration was successfully completed in a 12-month schedule.
