

Project Facts

Waterproofing and Sealing Wastewater Treatment Plant

Location: Ypsilanti, MI
Cost: \$407,000
Start Date: September 2002
Duration: Two Years

- ### Services Provided
- Interior and exterior sealing
 - Cold fluid waterproofing
 - Caulking
 - Coating using chemical resistive materials

Project Description

Part of a \$112 million expansion to the Ypsilanti Wastewater Treatment Plant, Western Waterproofing installed interior and exterior sealant to the Maintenance and Administration Buildings, and applied cold fluid waterproofing, caulking and chemical resistive coatings to various components of the waste handling tanks. In order to maintain the operation of the existing facility the project was completed in phases over a two year period.
